

## General

Our THHZ series EEBD is widely used for marine and offshore escape only in case of emergency. It mainly comprises hood, supply valve, medium pressure hose, firing strap, carrying bag and so on.

## Structure

# EEBD (Emergency Escape Breathing Device)

## Technical Datasheet

Type	THHZ15	THHZ10
Cylinder material	Steel	
Cylinder volume	3L	2L
Compressed air capacity	Over 540L	Over 360L
Working duration	Over 15Min	Over 10Min
Charging pressure	210bar	
Working pressure	3~210bar	
Flowrate	36L/Min	
Weight	6kg	5kg
Cylinder valve charging inlet	G5/8"	
Standard	EN1146:2005	
Approval	MED/GL/CCS	
Application	Ships, Offshore, oil-drilling platform	

## Ordering detail

Product and Description	Factory Code
THHZ15	L0023
THHZ10	L0022
Pressure gauge	L0023A
Hood	L0023B
Supply valve	L0023C
Medium pressure hood	L0023D
Cylinder valve with pressure reducing valve	L0023E
Firing strap	L0023F
Carrying bag	L0023G
