

General

Our RHZK series SCBA is widely used for marine and offshore fire-fighting. It mainly comprises full facemask, demand valve pressure reducing valve, cylinder valve, cylinder, black moulded carrying case and so on.

Structure

SCBA (Self-contained Compressed-air Breathing Apparatus)

Technical Datasheet

Type	RHZK6/30	RHZK6.8/30
Cylinder material	Steel	CompositeCarbon fiber
Cylinder volume	6L	6.8L
Compressed air capacity	1800L	2040L
Working duration	Over 45Min	Over 60Min
Charging pressure	300bar	
Working pressure	3~300bar	
Alarm pressure	50~60bar	
Weight	14kg	8kg
Cylinder valve charging inlet	G5/8"	
Standard	EN136(1998) &EN137(2006)	
Approval	MED/GL/CCS	
Application	Ships	Offshore,oil-drilling platform

Ordering detail

Product and Description	Factory Code
RHZK6/30	L0025_3
RHZK6.8/30	L0025_4
6L Spare cylinder with cylinder valve	L0025_3A
6.8L Spare cylinder with cylinder valve	L0025_4A
Pressure gauge	L0025B
Whistle warning unit	L0025C
Full facemask	L0025D
Demand valve	L0025E
Cylinder valve	L0025F
Pressure reducing valve	L0025G
Backplate set	L0025H
Moulded carrying case	L0025I
